

What is DBEE?

The Dung Beetle Ecosystem Engineers (DBEE) project is putting beetles on the ground and providing resources for interested producers, stakeholders and project partners across southern Australia.

The research is led by Charles Sturt University through funding from the Australian Government Department of Agriculture as part of its Rural R&D for Profit program, with support from eight partner organisations:

The University of Western Australia, CSIRO, Manaaki Whenua – Landcare Research, The University of New England, Dung Beetle Solutions International, Warren Catchments Council, Mingenew-Irwin Group and the Western Australian Department of Primary Industries and Regional Development.
